International Standard Book Number (ISBN)

If you reach the point where you can sell your work, or maybe even to distribute it free of charge, you will need an ISBN.

[Wikipedia ISBN article](#)

The ISBN system is partly a public service required to enable the location and cataloging of books, and for major publishing companies and countries it is a source of revenue.

As a resident of a county with minimal publishing industry or interest I am able to provide ISBN as a publisher under somewhat relaxed conditions.
